gregory_carlin@brown.edu • (914) 325-3213 • <http://gregcarlin.in>

EDUCATION

Sc.B. Computer Science and Economics, Brown University, GPA: 3.92 / 4.0 Sep 2015 — May 2019
Courses: Design and Analysis of Algorithms Computer Systems Artificial Intelligence Machine Learning Deep Learning

EMPLOYMENT

Software Development Intern, Facebook Cambridge, MA May 2018 — Aug 2018

Backend infrastructure intern on the warehouse data insights team

- Developed a service to store and expose data warehouse dependency information in a graph database
- Optimized service until it was capable of ingesting over half a billion records in about an hour
- Service enabled flexible and efficient querying of dependency data by interested users such as data scientists

Technology used: Java Python SQL Bash Presto Hive Neo4j Cypher

Teaching Assistant, Brown University Providence, RI Sep 2016 — Present

Teaching assistant for Accelerated Introduction to Computer Science (Fall 2016), Introduction to Software Engineering (Spring 2017), and Artificial Intelligence (Fall 2017, 2018)

- Head teaching assistant for Artificial Intelligence: lead 15 other students in updating and running the course
- Created and updated assignments for classes with a cumulative 281 students
- Guided and mentored students through these assignments on a weekly basis

Technology used: Pyret Java Python

Software Development Intern, Education First Cambridge, MA May 2017 — Jul 2017

Software development intern on the tour purchase team

- Solved bugs and built features in the internal CRM used by over 500 salespeople
- Built an administration tool from scratch to manage the types of available tour customizations
- Independently built an auditor to draw insights into the customizations customers requested

Technology used: C# ASP.NET HTML React.js JavaScript RabbitMQ

Technical Intern, State of Rhode Island Providence, RI Feb 2016 — May 2016

Web development intern for Rhode Island's Office of Digital Excellence

- Sole developer of GetOutdoorsRI, a website that encourages Rhode Islanders to explore local parks
- Project commissioned by the Rhode Island governor
- Built on a Drupal site originally developed by the state of Missouri

Technology used: HTML Drupal PHP

Software Developer, SchoolBee Rye, NY May 2015 — Sep 2015

Third software developer for a startup focused on digitizing the K-12 experience

- Solved bugs and built features in SchoolBee's web directory software, which is used by over 3700 students and their families
- Developed an automated view system to improve the speed of reads from a Mongo database

Technology used: HTML Angular.js Node.js MongoDB

PROJECTS

Developer, airDrive Jun 2016 — Aug 2016

HTML JavaScript Node.js MySQL Storj

Independently built proof-of-concept cloud storage website that combined the usability of Dropbox with the security of file sharding and end-to-end encryption

- Files were sharded across a network of users' machines using Storj
- Participated in Breakthrough-Lab, a summer entrepreneurship program at Brown University

Developer, jGrader Sep 2014 — Apr 2017

HTML JavaScript Node.js MySQL Java

Led a small team in building a website that enabled high school teachers to virtually collect, execute, and grade computer science assignments written in Java

- Created system capable of securely executing student code in browser with features such as File IO
- Was used by hundreds of teachers and thousands of students with virtually no marketing

HONORS AND AWARDS

Eagle Scout: Led volunteers in mapping several local cemeteries; only awarded to 5% of Boy Scouts Jun 2016
